About the Elective

Finance, one of the key functions, is the lifeline of any business. A business house runs on money and managing cash flows becomes crucial and critical. Finance has been defined as the art and science of managing money.

Companies are relying on finance professionals more than ever to help them effectively manage cash, assets, investments, and business risk. Finance does not just involve numbers and ratios, it also involves analyzing these numbers to turn them into actionable insights. Knowing how to use quantitative data to solve business problems and help make businesses make sound decisions is a skill that will propel one's career. In an online MBA finance program, one can learn to solve organizational problems using established theories and techniques. Though a professional qualification in finance will make one expert in technical aspects what is required in reality is an ability to research, communicate, convince, adapt and be open to shifting one's opinions based on present facts and respond to the rapidly changing environment. Only a management course in finance can provide an apt mix of the diverse abilities required to be a successful finance professional. Studying finance opens up a lot of diverse and exciting career opportunities in the corporate sector, banking, financial institutions, FinTech start-ups, brokerage houses and consultancy/advisory firms. Varied career options include investment banker, financial advisor, financial analyst, risk manager, M&A consultant etc. Though working in the finance domain is challenging, it is very financially rewarding.

Elective Highlights

- + Strong foundation in the principles and practices of Finance
- + Thorough understanding of advanced courses like Derivatives, Investment Banking, Financial Analytics, etc.
- + Courses mirror global professional certifications in Finance like CFA, CFP, CIMA
- + Industry aligned curriculum that delivers technical excellence and supplements professional skills
- + Achieve business mastery with a blend of Finance and Management courses
- + Analyze problems and propose actions in real-world situations as part of the master thesis

Eligibility

Pass in an Undergraduate (Bachelor) Program of a minimum duration of Three (3) years in any stream from a UGC recognized University, with a minimum aggregate of 50% or an equivalent letter/numerical grade. A relaxation of 5% shall be given to SC/ST candidates.

Candidates who are in the final semester of the Bachelor Program are also eligible to apply.
