About the Elective

Investment banks assist corporations and governments in raising capital by underwriting and acting as agents/underwriters in the issuance of securities. They act as intermediaries between the companies that want to raise money and investors who want to invest money.

This elective is specially placed in this segment to offer an enhanced career to the students who are willing to grow and upscale in the industry. Equity Research plays a vital role in any investment, this elective covers different stages and methods involved in Equity Research. The curriculum is designed to equip one with crucial skills such as interpreting financial statements, modeling and valuation, and transaction execution, along with proficiency in spreadsheets. This skill-building program builds mastery across various functions within core finance and Investment Banking. The program brings you an endorsed curriculum, powerful faculty and practical learning. The investment banking phase prepares you for a career in financial operations while Equity Research opens the door for careers in Securities Valuation, Financial Modeling, Financial Planning and Analysis, etc. Here's a chance to distinguish yourself from the crowd and testify your financial skills with an industry-endorsed curriculum.

Elective Highlights

- + Robust foundation in the Investment Banking and Financial System
- + Learn Job-Relevant Skills and equip yourselves with skills like quantitative and qualitative research
- + Our MBA breaks down business valuation methods, financial modeling techniques, and financial analyst skills into digestible and comprehensible pieces of knowledge.
- + Industry oriented practical curriculum and detailed understanding of topics as per the current industry standards
- + Learn effectively from various simulations and quality content to ensure enforceability in your learning
- + Bolster your theoretical learning with industry-relevant tips and knowledge
