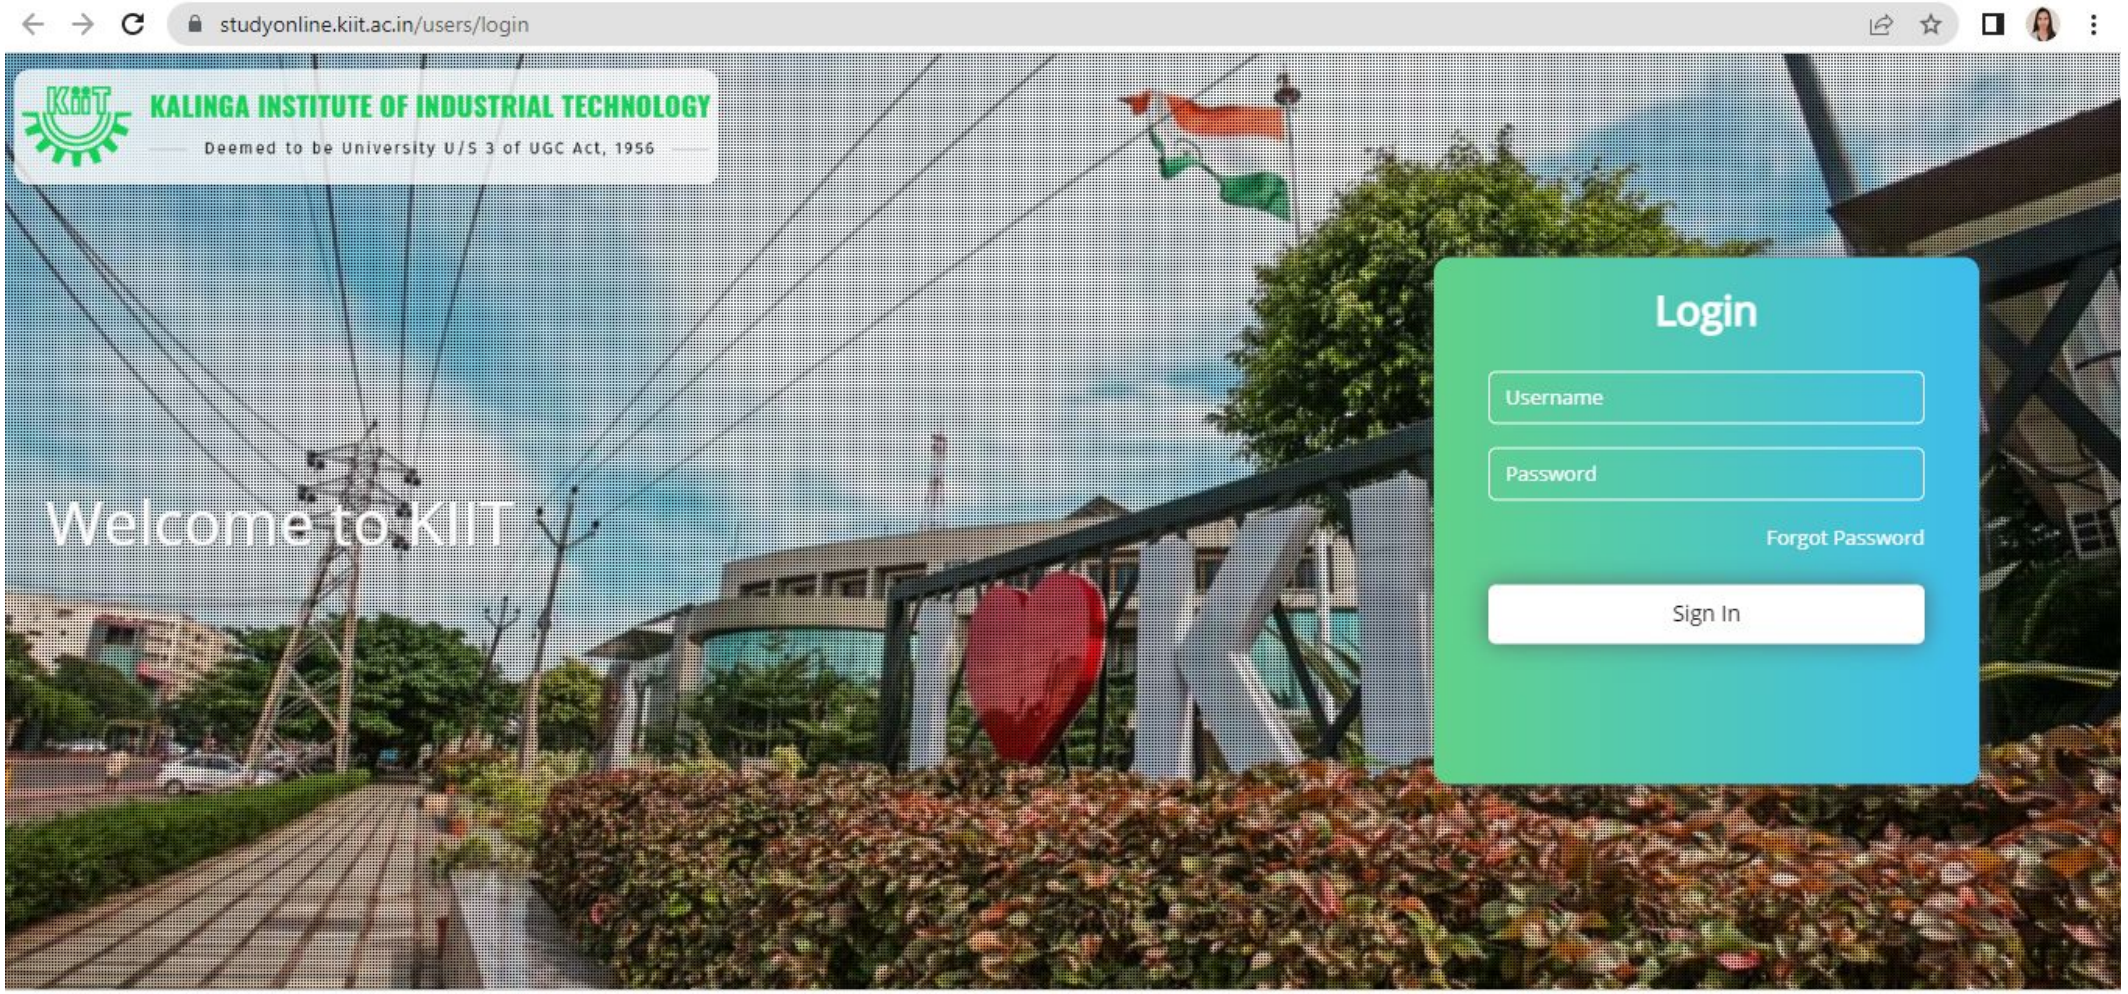
Learning Methodology

KIIT LMS Login



Learning Resources & Advantages

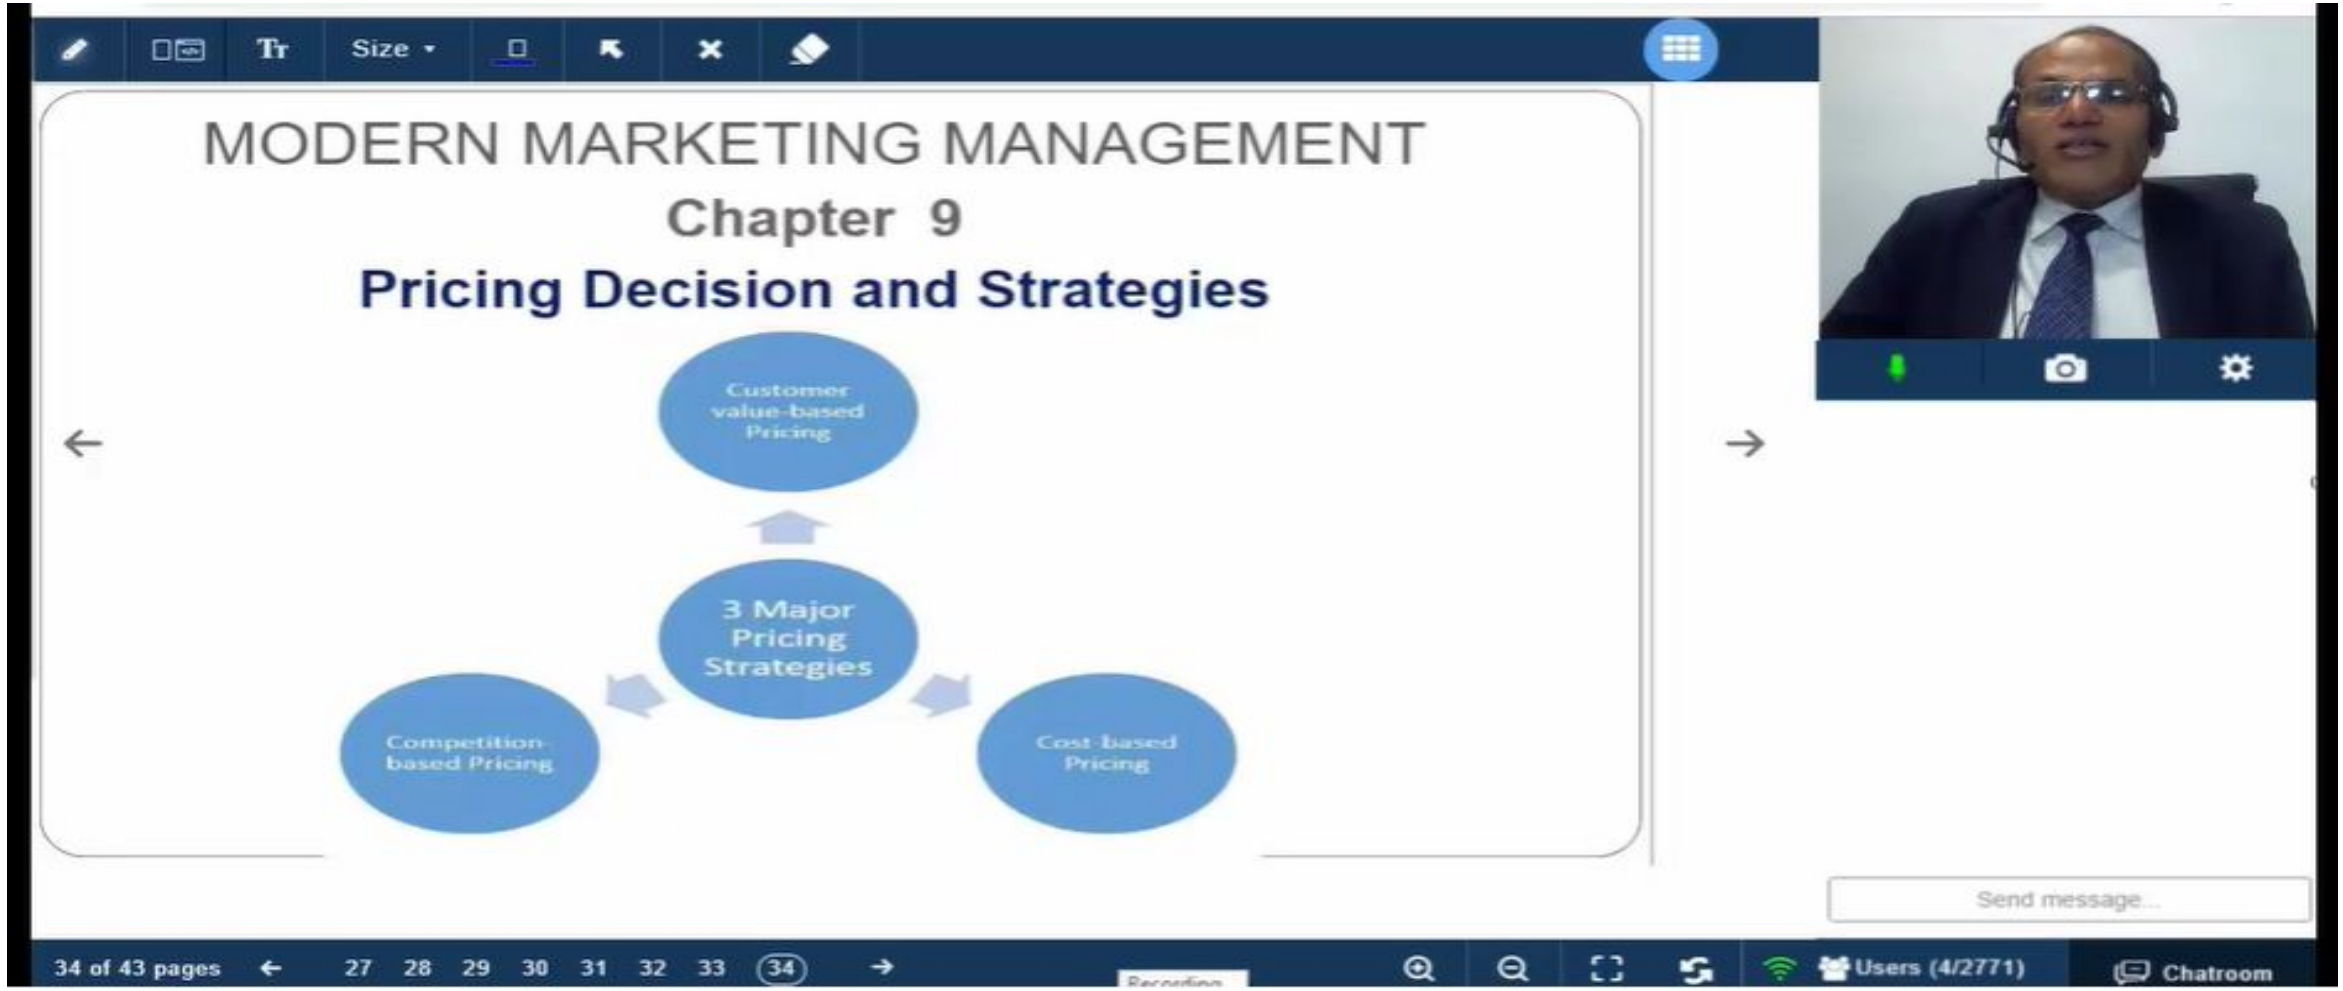
The Learning Resources of the said Programs for every subject is designed on the basis of the course objectives considering the conventional learners and the working professionals who are keen to acquire knowledge in the learning process.

With an objective to make the learning content more palatable for the target audience group, the following learning resources have been created for online programs:

E-book *PDF Content of Self Learning Material - Chapter Level*	**Study Guide** *Bullet Notes Of Every Chapter Explained In Simpler Way - Chapter Level*	**Practice Test** *Question Bank) - Chapter Level*	**Lab environment** *For Related Subjects, Where Necessary*	**Discussion Forum** *On Every Course Outcome*
Web Resources *- Articles / Ref. Videos - Subject Level*	**Tutorial Recorded Videos** *- Chapter Level*	**Live Interactive Sessions** *(Webinar)*	**Animated / Gamified Module** *- Subject Level*	**Case Study** **Subject Level**

Online Learning Resources

- **Tutorials:** These are recorded videos for every chapter. The subject matter experts have created the lesson plan based on the curriculum and they have recorded the video for every course outcome within the subject. This will help the learners to refer the session during their learning journey.



Online Learning Resources

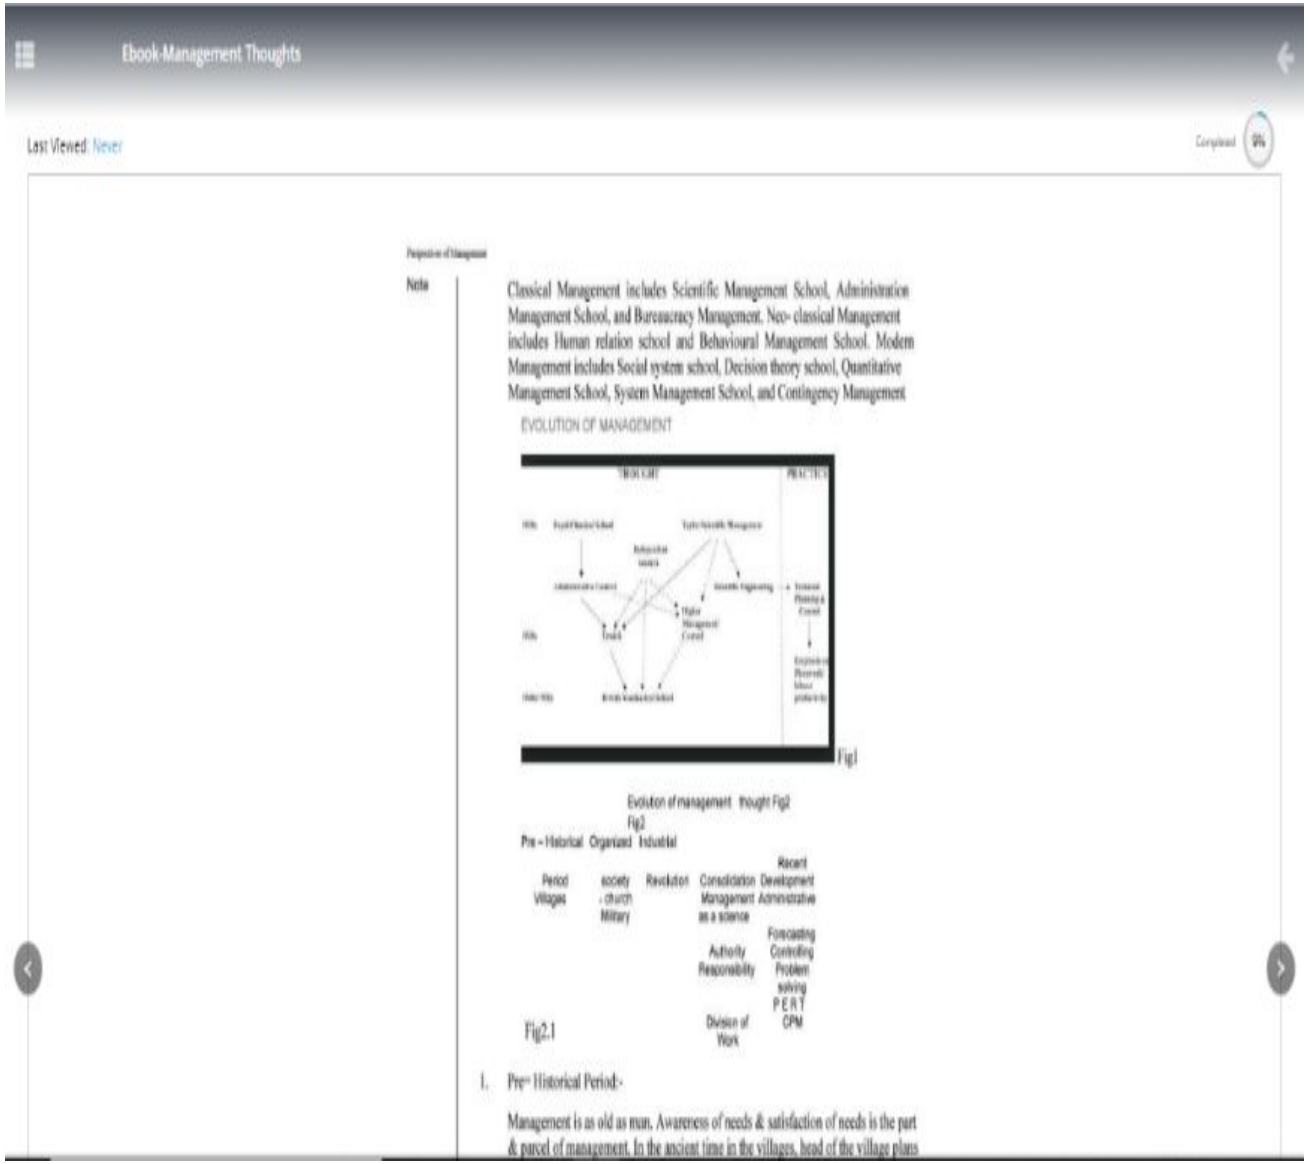
- **Gamified Practice Test:** The Gamified module consist of templates like football, cricket, basketball which has been integrated with 5 questions from every chapter. This helps the students to gauge their understanding about the topic.

- **Animated Case Studies:** As part of simulations the animated case studies at subject level are available for students to learn in given situation. After understanding the case the students would be able to give a solution which are through set of questions during the case study module. This helps the learners to perform in dynamic business environment.

Online Learning Resources

E-Book – Digital Text Book:

- Every Chapter would have an Ebook – A Digital Textbook
- The student should go through every chapter of the e-book provided and can make notes which will enable the student to understand important aspects of every topic during the learning process.



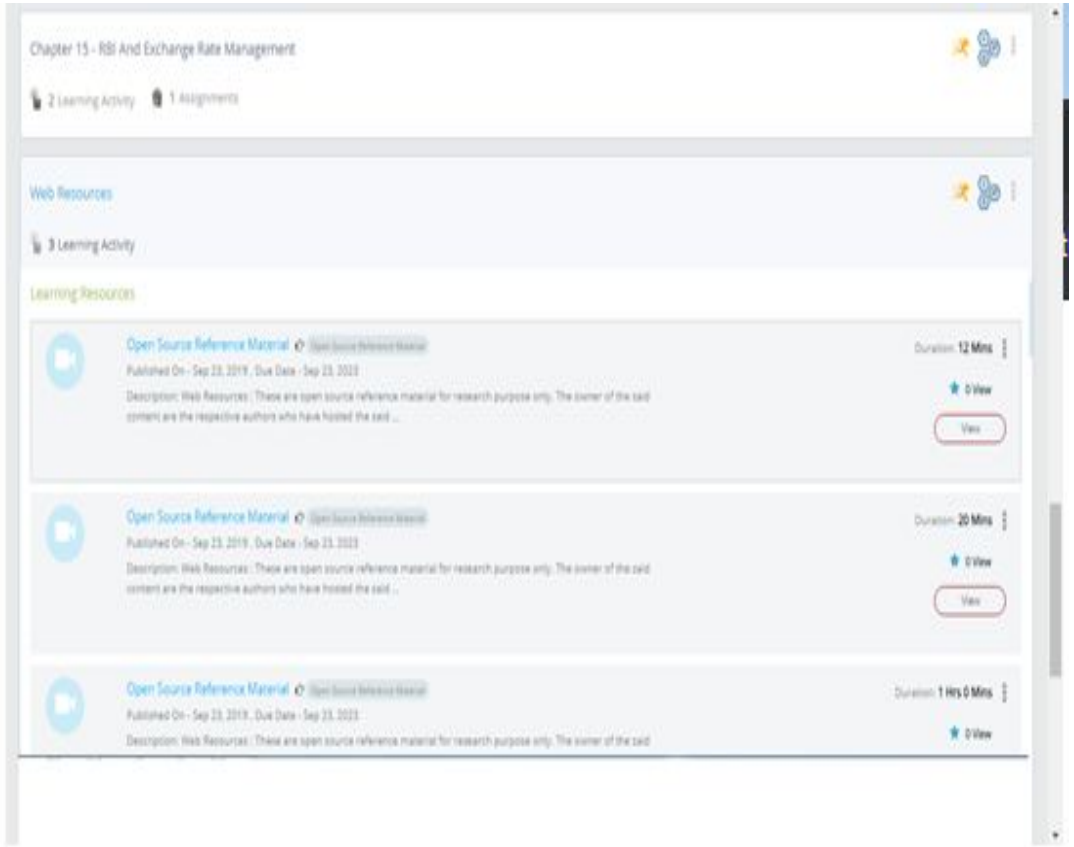
Online Learning Resources

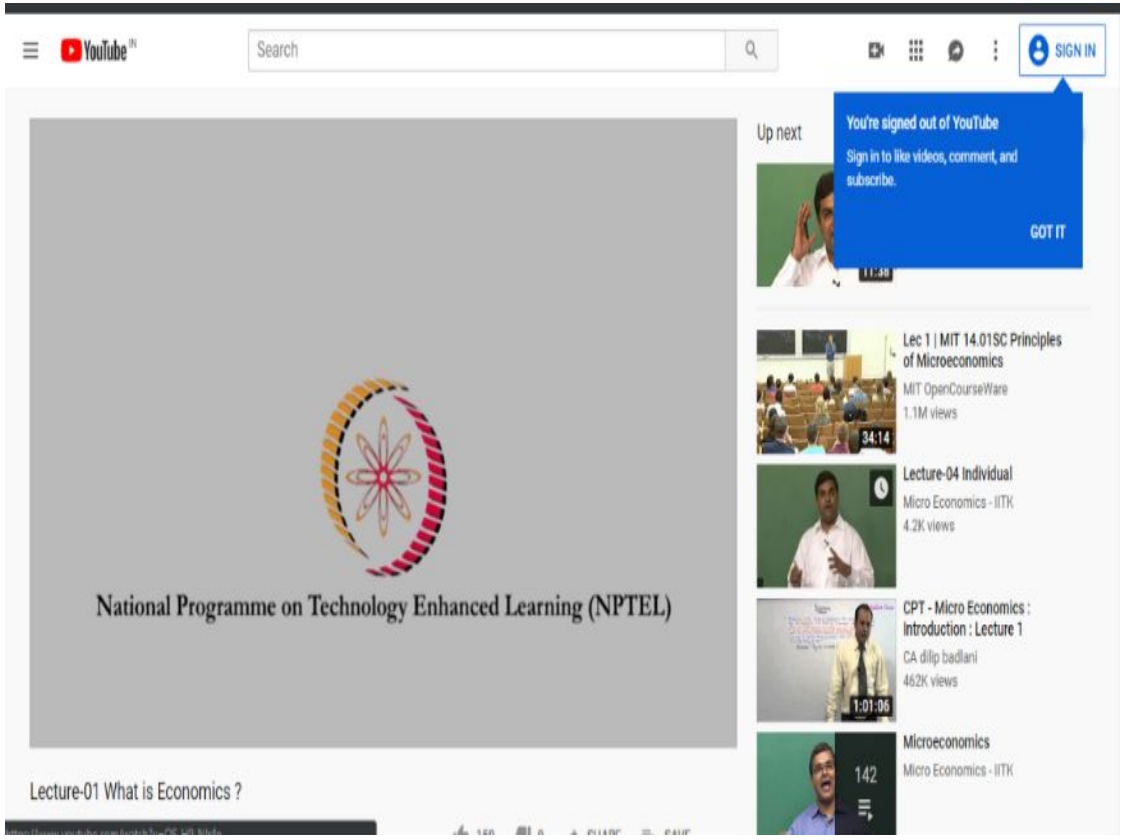
- **Gbook: Quick Learning Book:** This is a quick learning book with bullet notes in powerpoint presentation format. This helps the student to understand the key aspects of the topic.

Online Learning Resources

Open Learning Resources – Web Resources for Research Purpose and Reference Learning

The university has provided chapter wise open source reference learning links which include videos, articles for research purpose.





- Access to university based research publications are also provided to the students.

Online Learning Resources

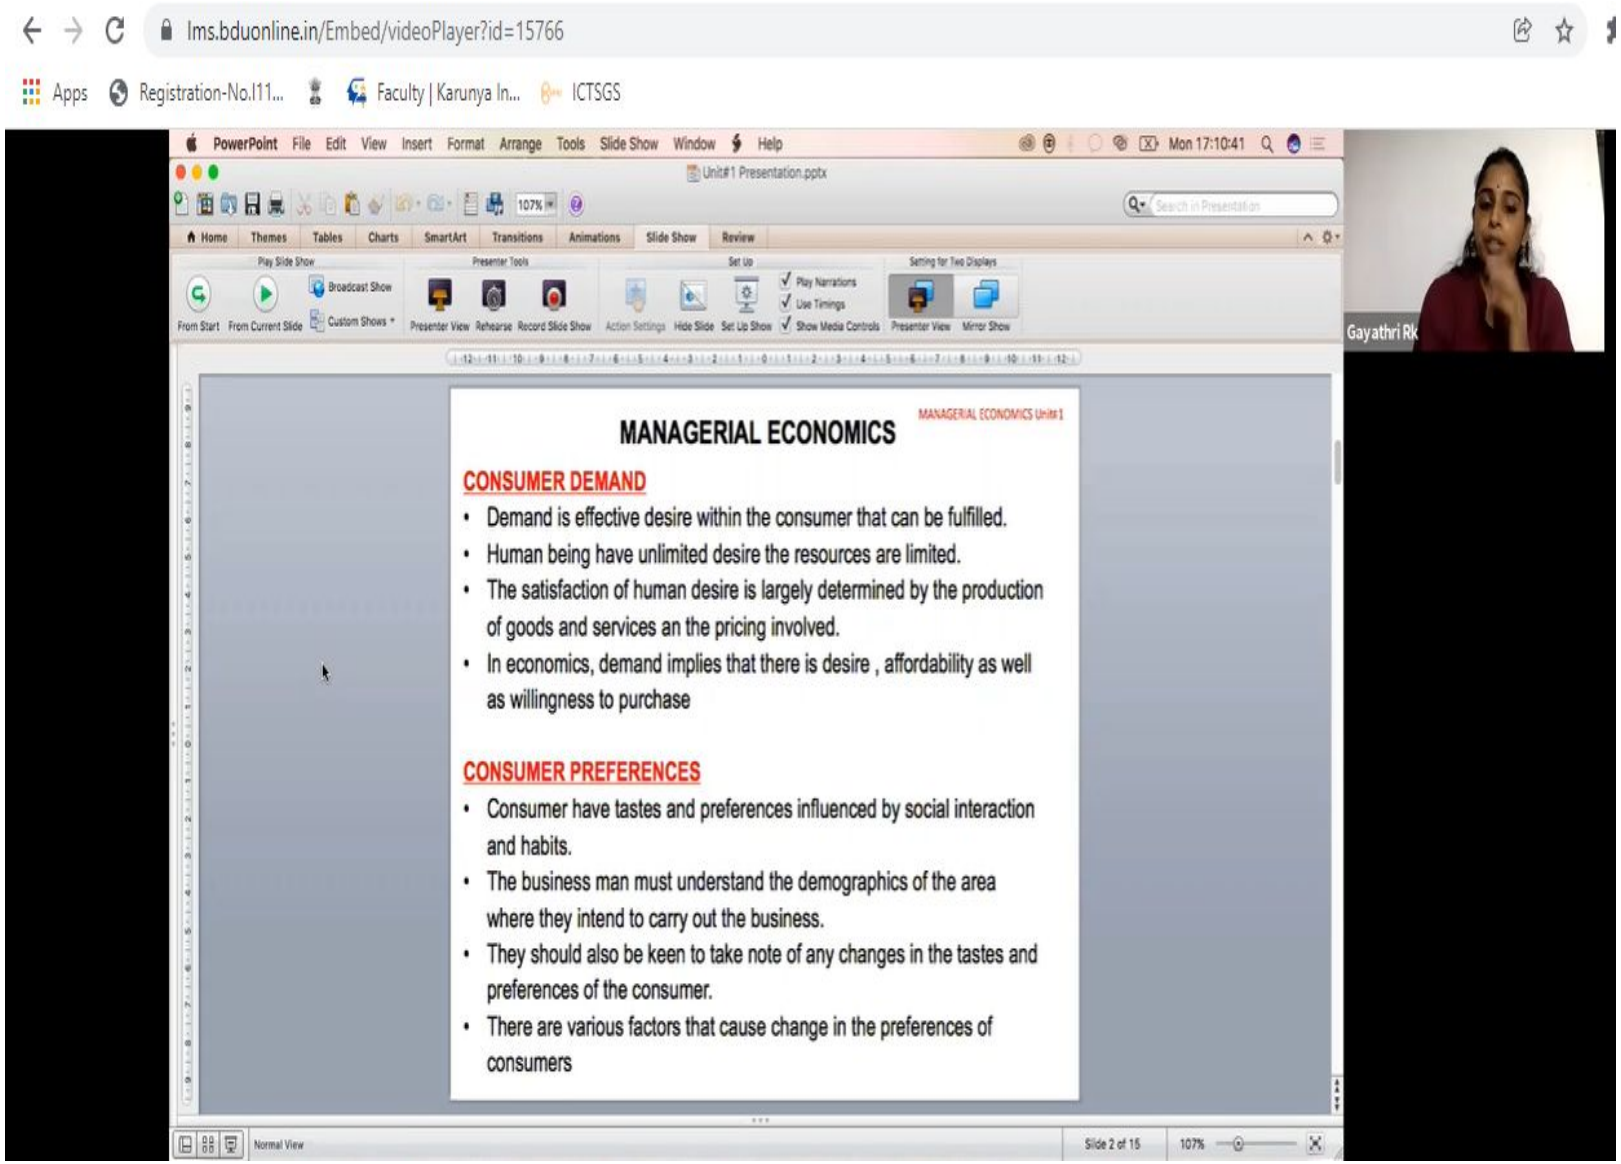
Discussion Forums

- Every subject would Open and Graded discussion forum which would be part of the continuous evaluation process
- The schedule for discussion forums is available in the LMS for students
- The timelines for every discussion forum for every subject would be published which the student have to participate and give their responses on given topic during the open window provided for the same

Online Learning Resources

Synchronous Online Live Interactive Sessions (Synchronous Sessions)

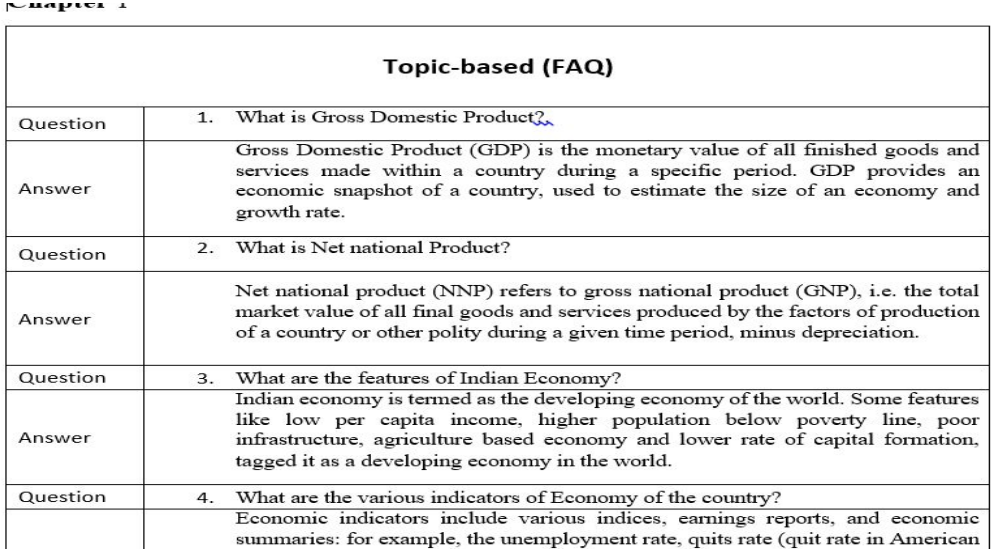
- For every subject based on the course outcome, there would be one live interactive online sessions per chapter conducted through the learning management system.
- The faculty from the university would conduct the said live session and the students would join through the LMS.
- The students should refer the calendar for scheduled live session in their respective LMS.
- Every Live Session per chapter would be of 1 hour



Online Learning Resources

Frequently Asked Questions (FAQ)

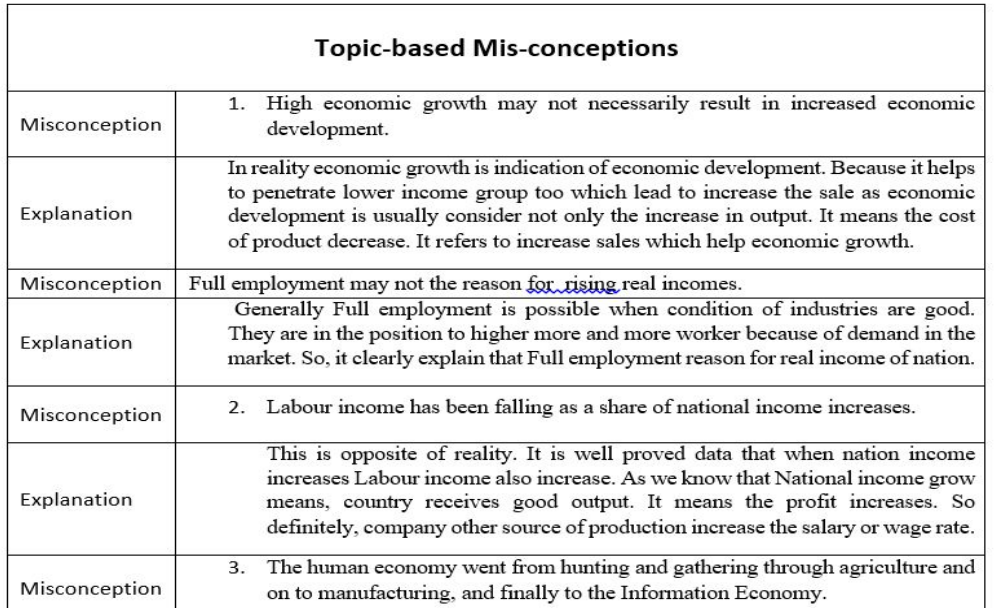
- Every Module/ Chapter has a Pre – Learning FAQ enabling the student to have an understanding about the topic in easy language.



Topic-based (FAQ)	
Question	1. What is Gross Domestic Product?
Answer	Gross Domestic Product (GDP) is the monetary value of all finished goods and services made within a country during a specific period. GDP provides an economic snapshot of a country, used to estimate the size of an economy and growth rate.
Question	2. What is Net national Product?
Answer	Net national product (NNP) refers to gross national product (GNP), i.e. the total market value of all final goods and services produced by the factors of production of a country or other polity during a given time period, minus depreciation.
Question	3. What are the features of Indian Economy?
Answer	Indian economy is termed as the developing economy of the world. Some features like low per capita income, higher population below poverty line, poor infrastructure, agriculture based economy and lower rate of capital formation, tagged it as a developing economy in the world.
Question	4. What are the various indicators of Economy of the country?
	Economic indicators include various indices, earnings reports, and economic summaries: for example, the unemployment rate, quits rate (quit rate in American

Misconceptions

- This helps the learners to refer the common misconceptions and thereby helps the learners to understand the same during the learning process.



Topic-based Mis-conceptions	
Misconception	1. High economic growth may not necessarily result in increased economic development.
Explanation	In reality economic growth is indication of economic development. Because it helps to penetrate lower income group too which lead to increase the sale as economic development is usually consider not only the increase in output. It means the cost of product decrease. It refers to increase sales which help economic growth.
Misconception	Full employment may not the reason for rising real incomes.
Explanation	Generally Full employment is possible when condition of industries are good. They are in the position to higher more and more worker because of demand in the market. So, it clearly explain that Full employment reason for real income of nation.
Misconception	2. Labour income has been falling as a share of national income increases.
Explanation	This is opposite of reality. It is well proved data that when nation income increases Labour income also increase. As we know that National income grow means, country receives good output. It means the profit increases. So definitely, company other source of production increase the salary or wage rate.
Misconception	3. The human economy went from hunting and gathering through agriculture and on to manufacturing, and finally to the Information Economy.

Online Learning Resources

Topic Based Assignments

- Every Module/ Chapter has a Pre-Learning FAQ enabling the student to have an understanding about the topic in easy language.

Topic-based Assignments	
Sr. No.	**Questions**
1	What is gender gap in Business communication?
2	What is knowledge gap in Business communication?
3	What is role of supervisory level in Business communication?
4	What is role of upper managers in Business communication?
5	What is cultural gap in Business communication?
